Step 1:

Go to official Sendgrid website: <https://sendgrid.com/>, then click start for free.

Step 2:

Then go to Registration Page, you need to give all the details required for creating a Sendgrid account and finally click create button. The below screenshot will show the registration Process.

The screenshot shows the Twilio SendGrid registration page titled "Tell Us About Yourself". The page includes a sub-header "This information will help us serve you better." and a form with the following fields and options:

- First Name * and Last Name *
- Company Name * and Company Website *
- Country Code (USA (+1)) and Phone Number *
- What is your role? * with radio button options: Developer, CEO, Marketer, and Other.
- How many emails do you send per month? * with radio button options: 0 to 100,000 and 100,000 to 700,000.

A small Twilio logo is visible in the bottom right corner of the form area.

Step 3:

Then it will redirect you to a home page of your sendgrid account.

The screenshot shows the Twilio SendGrid dashboard home page for user Vishnu. The page features a sidebar with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area includes a welcome message "Welcome, Vishnu!", a sub-header "To get up and running quickly, please follow the steps outlined below.", and a prominent blue banner that reads "Send your first emails with Twilio SendGrid". Below the banner, the section "Create a sender identity" provides instructions on how to create a sender identity, recommending the "Create a Single Sender" button. A secondary option "Authenticate a domain instead" is also available. A diagram illustrates the concept of a sender identity, showing an email address "Your Business (vishnu@vishnu-business.com)" and a corresponding email client interface.

Step 4:

Finally, you have created your account and now you can access the sendgrid account.
